EDUCATION

Bachelor of Engineering (BE), Information Science and Engineering

AMC Engineering College, Bangalore

07/2020 - 05/2024

PERSONAL PROJECTS

Chat App

- Built a Flutter chat app with intuitive UI, Firebase backend for authentication, real-time database, and cloud storage, alongside payment integration. Integrated Firebase Cloud Messaging for instant push notifications.

Weather App UI

- Designed a sleek weather app UI with Flutter, showcasing expertise in mobile app design and front-end development. Provides users with accurate weather data including temperature, humidity, wind speed, and conditions.

Food Delivery App UI

- Designed and implemented a visually stunning and user-friendly Food Delivery App User Interface (UI) using Flutter, combining creativity and functionality

Breast Tumor Prediction Using Machine Learning

- Created a web application utilizing logistic regression, decision tree, and random forest models to accurately predict breast tumor outcomes, empowering users with early detection and treatment insights.
