## PROFESSIONAL SUMMARY

---

Full Stack Developer with experience building scalable mobile and web applications using Flutter, React.js, React Native, and Node.js. Skilled in REST API integration, backend development, database management, and third-party integrations in fast-paced startup environments. Currently exploring AI technologies and modern application development.

## TECHNICAL SKILLS

---

**Full Stack Development:** Python, JavaScript, React.js, Node.js, Express.js, REST API Development, Tailwind CSS

**Mobile Development:** Flutter (GetX State Management), React Native

**Databases:** MySQL, Firebase, PostgreSQL

**Tools & Platforms:** Git, GitHub, Postman, Figma, Webflow, VS Code, Docker

**Integrations & API Management:** Shiprocket, Reelo, Razorpay, APISIX (key management and API gateway)

## EXPERIENCE

---

### Freelance Full Stack Developer

Jun 2026 – Present

Self-employed (Remote)

- Designing and developing scalable full-stack web applications using modern frontend, backend, and database technologies.
- Collaborating with clients to gather requirements, build REST APIs, and integrate AI-powered features to deliver production-ready solutions.

### Full Stack Developer

Nov 2025 – Apr 2026

*Muncho Technologies*, Bangalore (Remote)

- Led development of a Flutter waiter management app, enhancing usability and streamlining order workflows.
- Implemented GetX state management, improving maintainability and reducing UI inconsistencies.
- Built React.js dashboard modules, a custom QR code designer, and responsive React Native (Web) UI with Reelo integration.
- Developed Node.js & Express backend services, REST APIs, and managed MySQL and Firebase.
- Collaborated in a startup environment, driving feature releases and product improvements.

### Flutter Developer Intern

Mar 2025 – Oct 2025

*Muncho Technologies*, Bangalore (Remote)

- Built the Flutter-based waiter management app UI from scratch under senior guidance.
- Developed and integrated backend APIs, implemented GetX, and managed real-time data with Firebase.
- Contributed across the full-stack mobile application development lifecycle.

## PROJECTS

---

### Chat Application (Flutter + Firebase)

- Built a real-time chat app with modern UI and smooth user experience.
- Implemented authentication, notifications, and media sharing.

<https://github.com/snehakumari1112/Chat-App>

### Travel Website

- Designed responsive website UI using Tailwind CSS with a mobile-first approach
- Improved UI consistency and user experience
